

Choices made to ensure high quality sexual violence survey results

Keith McSweeney & Helen McGrath, Central Statistics Office, Ireland

Experience of sexual violence by sex, 2022

Survey element	Could...	Did...
Survey design	Module in survey	Single topic
Modal approach	Single	Multiple
Modes	Interviewer face-to-face	Self-completion
Initial interaction	Household-based	Person-based
Survey name	Sexual Violence Survey	Safety of the Person
Field staff role	"Interviewer"	"Recruiter"
Dissemination strategy	Big Bang	Series of publications

- Perhaps the **most fundamental choice** though – get your **National Statistical Office** to conduct the survey
 - expertise, independence, tie in to the ‘system’,
- Debate then is what does the data mean for society/policy rather than about the quality of the data itself
